

Save time. Save money. The S-Series OAS Pays for itself in Less than 1 Year!

The S Series OAS Automated Order Assembly System is designed to help make your business more competitive and profitable.

White Conveyors' OAS is the perfect solution to expand your existing business, improve customer service and increase profits. Order Assembly couldn't be easier.

The OAS significantly reduces your labor costs while greatly increasing productivity. What's more, order accuracy is optimized, and employee morale is improved as fatigue is virtually eliminated.

And if that were not enough, Savings from reduced labor costs combined with increased productivity typically results in a return on investment in less than one year.*

The system can be delivered and operational the same day. As an option, it can be mounted on wheels for mobility or storage. It couldn't be easier. Isn't it time to realize remarkable time and money savings?

- ✓ **Easy to Use**
clear and easy-to-read color touch screen, plus audible instructions
- ✓ **Increase Productivity while Reducing Labor Costs**
capable of assembling over 2000 garments per shift with one operator
- ✓ **Fast Return on Investment**
typical ROI in less than 1 year*
- ✓ **More Capacity**
standard 5 slots per foot have 50-80% more hanger capacity than competitors, reducing the need to split large orders
- ✓ **Flexible**
software customization is available for specialized customer's requirements
- ✓ **Highly Accurate and Reliable**
greatly reduces the chance for human errors
- ✓ **Reliable, Robust and Durable Construction**
with average operational lifespan of 25+ years
- ✓ **USA Based Manufacturer for over 75 Years**
remote diagnostics, setting adjustments and troubleshooting assistance reduces downtime, and minimizes the need for an on-site service technician

Hanger loading guide assures accuracy

Bar-code garment scanner

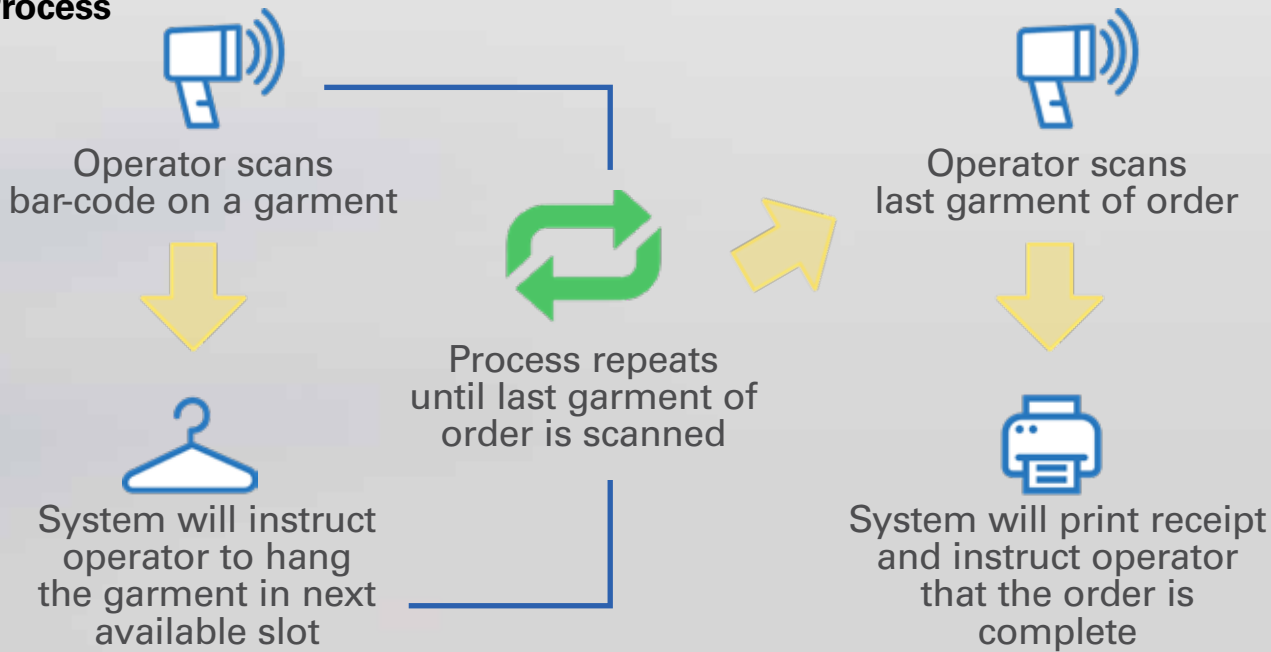

Easy-to-read touch screen monitor with audible instructions
